

The Kind of **Efficiency**  
Dressing programmed intuitively

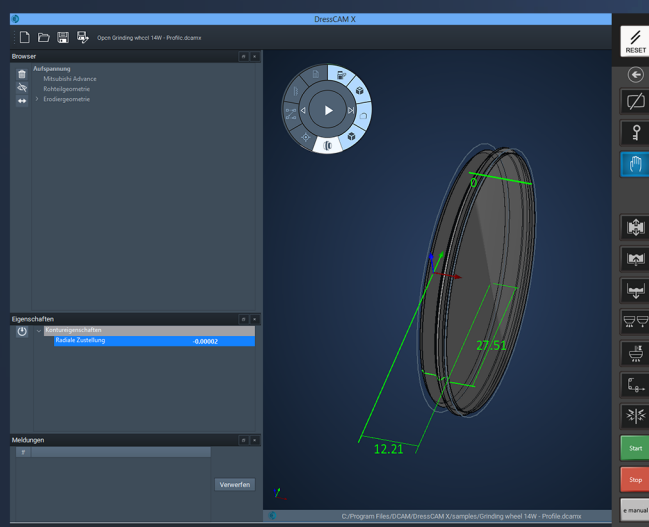

# DRESSCAM X

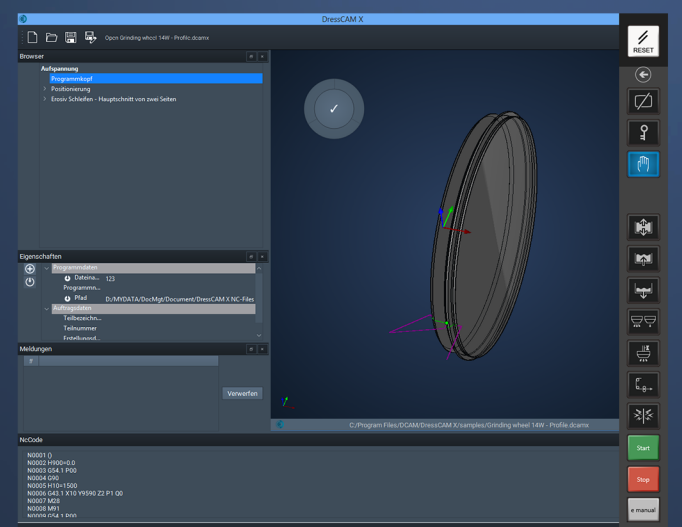

The EDM Dress Solution

DressCAM X - the innovative CAM solution to create NC-Programs to dress profiled grinding wheels by Wire-EDM automatically.

Using DressCAM X, dressing of profiled grindingwheels can be carried out easily and precisely directly on the machine control thanks to intuitive user guidance. The PROCESS-GENERATOR, the central control element in DressCAM X, guides the user automatically to the goal with just a few simple mouse clicks, even without a great deal of prior knowledge.

It only takes a few seconds to get from the grinding wheel profile to the Technology and the respective properties, right to the final code for 100 percent machine control.
